

McIntosh TRADE UP PROGRAM

UPGRADE TO YOUR NEXT LEVEL
OF AUDIO EXCELLENCE *

*McIntosh TradeUP Program is subject to certain Terms & Conditions.

For a limited time, get up to the total original retail price for any home audio electronics, regardless of brand* when you trade them in against the purchase of a NEW McIntosh product(s) from a UK Authorised McIntosh Dealer. The only caveat is that the purchase value of the new McIntosh product must be more than double the value of the traded-in product.

Program runs from 01 May 2023 to 30 June 2023.

***MCINTOSH TRADEUP PROGRAM IS SUBJECT TO TERMS & CONDITIONS
(VERY IMPORTANT - PLEASE READ)**

- Only one piece of home audio electronics can be traded-in against a single piece of McIntosh electronics or McIntosh Combo eg: preamplifier & power amplifier.
- The McIntosh product or McIntosh combo that the customer wants to purchase must be at least two times the value of the HiFi product that the customer wants to trade-in.
Example: If a customer wants to trade-in an integrated amplifier that originally retailed for £2500, to be eligible, the McIntosh Electrical product the customer wishes to purchase must be MRP £5000 or more. The customer will then trade-in the integrated amplifier with the dealer, and up to £2500 will be taken off the price of the McIntosh product being purchased. Assuming the full original retail is given for the trade-in, the customer will then have to pay an additional £2500 to complete the purchase of the £5000 amplifier in this example.
- McIntosh TradeUP Program applies only to the trade-in/purchase of HiFi Electronics such as Stereo power amps, preamps, integrated amps, phonostages, turntables, cd players/dacs, streamers/music servers, tuners, headphone amplifiers and receivers. Monoblock amps are eligible but only when traded in and sold in pairs.
- All McIntosh AV/Home Cinema products are not part of the McIntosh TradeUP Program at this time.
- The HiFi product(s) that the customer wants to trade-in can be from any brand; however, the customer must provide proof of purchase in the form of an original invoice/receipt.
- Traded-in product(s) must be in reasonable physical condition, they must actually work, and they must NOT have been modified or altered from their original design.
- It is the customer's responsibility to ensure that the HiFi product(s) being trade-in arrives at the dealer safely and undamaged unless alternative delivery/collection arrangements have been agreed upon with the dealer.
- The McIntosh product(s) that the customer wants to purchase must be at full original retail price and only from a UK Authorised McIntosh Dealer.
- The UK Authorised McIntosh Dealer reserves the right to deem any product(s) that the customer wants to trade-in as NOT eligible for the McIntosh TradeUP Programme.
- McIntosh models that qualify for the TradeUP Program are listed in this brochure.
- If you have any questions about the McIntosh TradeUP Program, please do not hesitate to speak to a UK Authorised McIntosh Dealer.
- McIntosh TradeUP Program runs from: 01 May 2023 - 30 June 2023.
